

FIREWOOD *processors*

Production of larger quantities of firewood has never been as easy and quick as with the TITAN firewood processor. It ensures safe use and easy maintenance. The machine is also environmentally friendly because it does not pollute the environment and the leftover wood after cutting and splitting can be recovered for further processing.

LOG DECKS

DM4000/3

LOG DECK

Log decks are available in two or four meter-long versions. Logs are loaded with a chain and spiked rollers - rolling instead of sliding logs.
