

KEY FEATURES

- Fixed Knife Design**
Simple, robust construction with minimal moving parts for long service life.
- High Biting Force**
Reinforced grapple body and oversized rams deliver maximum cutting power.
- Double-Bevel HARDOX® 450 Blades**
Upgraded Swedish steel blades engineered for clean, efficient cuts.
- Dual-Function Capability (R Model)**
Blade can be removed to use as an accumulating grapple.
- Low Maintenance**
Fewer wear components = less downtime in the field.
- Versatile Forestry Applications**
Ideal for thinning, pruning, limbing, harvesting, and selective trimming.
- Perfect for Orchards**
Excellent for avocado and macadamia limb removal and maintenance.
- Compatible with Intermercato Rotators**
Add 360° rotation for greater precision and positioning.
- Trusted European Design**
Proven to increase productivity in small-scale forestry operations.
