

Designed for safety & low maintenance

#### KEY FEATURES

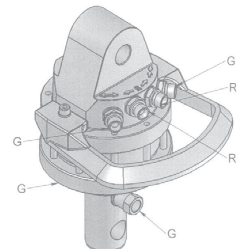

- Makes your loader more productive - skid a 20m tree straight into a chipper
- Less ground damage as loader doesn't need to turn to feed chipper
- Easy to use with self centering jaws
- More stable - hanger allows loaders mast to stay low
- Long lasting bronze bushes and greasable pins
- Safe - manual rotator encapsulated 50 mm pin
- Makes work easy with a rope bollard for lowering branches.
- Optional hydraulic rotator IVR3 - two sets of auxiliaries or solenoid required

Suits all mini-loaders 15-30hp
